

# Canvas Reception

## Technical Specifications

### Construction & Materials

- Laminate:** Exposed surfaces are woodgrain and solid color laminates. Worksurfaces are bonded to the core with a PVA adhesive in a cold press to prevent separation of the laminate from the core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.
- Tops:** Worksurfaces are 1" thick TFL or HPL with 1mm matching PVC rims in a square profile. Worksurfaces are shaped on all four sides and fit flush with adjoining worksurfaces for a clean aesthetic. Transaction tops in TFL or HPL are edge-banded and have a selfedge on all sides. Accent tops of 3/8" glass with 1 1/4" silver standoffs are available. Transaction tops in Solid Surface materials are 1 1/2" thick and available in 6 standard colors.
- Chassis:** TFL chassis and storage components. Worksurfaces, storage components, and end panels are securely fastened using high quality European fastening systems, 16-gauge joining brackets and wooden dowels to assure maximum strength. Exposed edges have matching PVC edge band. All units are equipped with heavy-duty glides featuring 1 1/4" adjustment to ensure proper leveling and compensation for uneven floors. All modular components have standard wire management openings from inside the pedestal to the kneespace allowing quick access to technology below.
- Drawers:** Drawers feature 5-sided construction allowing for easy removal of drawer fronts. Drawer fronts are 3-ply, 3/4" thick thermally fused laminate on both faces with matching PVC banded edges. All drawer sides are 1/2" thick woodgrain vinyl-wrapped construction with mitered corners. Box and file drawers have 1/8" thick hardboard bottoms and tested for 100lb capacity. Lateral file drawers feature 1/4" thick bottoms and tested for 200lb capacity. All drawers feature full extension, progressive action slides with precision steel ball bearings. All suspensions have a limited lifetime warranty.
- Filing:** All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.
- Locking:** All units with file drawers feature standard locking. Lock core available in black or silver, and will match pull color. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Keyed alike units available upon request at no additional charge.

### Features

- Welcome customers in an inviting and forward-thinking space. Canvas Reception extends simple sophistication with an offering of functional and distinctive design options.
- Experience the breadth of this line to find the perfect fit and level of style for your needs. Explore models, sizes, and premium details to heighten function and luxury for the user, the environment, and all of your visitors.
