

Reminisce Seating

Technical Specifications

Construction & Materials

- Seat/Back:** High Grade Polyurethane Foam, 1½" thick in the seat and 1½" thick in the back. Textiles are sewn with double stitch seams. High quality sinuous springs with weight distribution rods ensure a comfortable seating application.
- Frame:** Exposed wood components and chair frame are manufactured using European Beech and are free of spirits, discoloration, pits, shakes, and wormholes; base caps are manufactured using select Maple. All chair joints are double-doweled or mortised and tenoned, screwed, and glued for maximum strength and durability. All seats feature corner blocking. Frames are individually hand assembled and sanded prior to being finished. Non-marring nylon glides included in each leg at floor level.
- Finish:** A multi-step, hand-finishing process on all exposed wood frames. Chairs feature a catalyzed varnish finish which offers durability, lasting beauty, and resistance to normal wear.

Features

- Create a timeless foundation for office environments with traditional style that is classic and enduring.
- Select from tufted or plain backs to best fit your design vision and environment.
- Swivels feature swivel-tilt control with pneumatic height adjustment and tension control.
- Solid hardwood frames feature carved arm and leg detailing.
- Available in single upholstery in a wide variety of graded-in or contract options, including fabric, vinyl, and leather. Find inspiration at www.indianafurniture.com/resources/textiles.
- Choose from 28 wood finishes for the frame. Find inspiration with our [Surface Materials options](#).
- Ships fully assembled.
