

Rockstar Seating

Technical Specifications

Construction & Materials

- Seat:** All units have contoured molded plywood seat with 3" thick High Grade Polyurethane Foam
- Back:** Roadie models (100R & 101R) have contoured plywood back with 2" thick High Grade Polyurethane Foam; Headliner models (100H & 101H) have contoured plywood back, 2" thick plush foam in the back, 3" thick High Grade Polyurethane Foam for added lumbar support and high density side bolsters for additional back support
- Arms:** Black polyurethane T-arms, aluminum or black fixed polyurethane loop arms, and aluminum fixed cantilever arms with black polyurethane pads
- Base:** Black nylon or polished aluminum 5-star base
- Casters:** 50mm black dual-wheel casters, black non-marring soft casters, black guides or chrome-rimmed hard surface casters with roll control

Features

- Created for everyday use in every application; features generous proportions and standout comfort for users of all sizes.
- Available with an optional button detail, available in 5 pre-selected vinyls or choose to match the primary or accent upholstery.
- Select single or contrasting upholsteries in a wide range of graded-in or contract options including fabrics, vinyls, and leathers.
- A variety of arm options: armless, height adjustable T-arms with optional width adjustment with teardrop or surfboard shaped arm caps, fixed black or aluminum loop arms, or fixed cantilever arms with polyurethane pads.
- Roadie and Headliner models feature contoured waterfall edge seat features rounded, sloped front to relieve pressure on back of user's thighs and knees, which helps to improve blood circulation.
- Roadie units have an ergonomically contoured back with integrated lumbar support for added comfort.
- Headliner units feature a redesigned back with added high grade polyurethane foam and plush bolsters for maximum support and comfort.
- Your choice of control options: the Swivel Tilt Control, which adjusts the angle of the seat and back simultaneously, features pneumatic height adjustment, multi-angle and locking recline, and adjustable tension; the Synchro Tilt Comfort Control features pneumatic height adjustment, multi-angle and locking recline, adjustable tension control, and optional seat slider; and the Weight-Activated Control features pneumatic height adjustment, multi-angle and locking recline, and automatic tension, which inherently adjusts to the weight of the user for maximum comfort.
- Weight-Activated Control is rated for users up to 325lbs, while the Swivel Tilt and Synchro Tilt Comfort Controls are rated for users up to 275lbs.
- Rockstar ships knocked down with assembly instructions found on our website or select optional factory assembled shipping.
