Clutch

Swivel Seating

One chair does not fit all. And that's why Clutch is a build-your-features chair. For private office, conference or in an open collaborative space, Clutch is designed to fit your exact need. Choose the height that fits the environment, the arm that supports the task, and the base that works best for the project. Contoured lumbar support and flexible suspension provide all day comfort. A selection of arm and base styles offer the right adjustment. Spec the appropriate final touches for highbrow environments or scale for casual office settings.
