DAMAGED MERCHANDISE
The consignee is responsible for filing claims with the carrier for damage and shortages. Claims for both obvious and concealed damage must be filed within 15 calendar days, and the damaged merchandise must not have been moved from the original receiving location. All damaged merchandise, including the cartons and packing materials, must be retained for inspection by either the carrier or by an Indiana Furniture Sales Representative. Indiana Furniture reserves the right to select the most cost effective way to repair or replace the damaged item. Once you have notified the carrier, please contact Customer Service for further assistance.

Obvious Damage/Missing Cartons — Do not refuse merchandise damaged in transit. Indiana Furniture recommends the consignee inspect all merchandise upon arrival. If a shipment is received damaged or short, note all information on carrier's copy and your copy of freight bill and delivery receipt. Notify the delivering carrier and file a claim immediately. Pending the results of your claim, either Indiana Furniture or the carrier will cover 100% of the cost to repair or replace the damaged or missing item.

Concealed Damage — If concealed damage is discovered, notify the delivering carrier at once and request an inspection. This must be done within 15 calendar days of delivery. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted them, noting the time and date, and that they failed to comply with your request. This, along with the other papers in your possession, will support the claim. Pending the results of your claim, the cost to repair or replace the item will be covered ⅓ by the carrier and ⅔ by Indiana Furniture for shipments less than a full truckload and 100% by Indiana Furniture for shipments of full truck loads.

RETURN MERCHANDISE
Merchandise will not be accepted for return without a RGA (Return Goods Authorization) issued by Indiana Furniture. We will consider issuing RGA's for the following reasons:

1. Manufacturing defect (inspected by Indiana Furniture representative)
2. Indiana Furniture order processing error
3. Shipping error
4. Mis-marked cartons
5. Duplicated shipments

If you have any questions as to whether your reason for return qualifies for consideration, please contact your Customer Service Representative. Merchandise must be returned within 60 days of the RGA issued date, or within 60 days upon receipt of replacement product to receive credit. Returns due to mis-marked cartons must also be returned in the original cartoning, with shipping labels intact, to receive credit.

All merchandise being returned must be properly packed and protected to ensure no further damage is incurred during transportation back to an Indiana Furniture facility. Upon receipt, all returned merchandise will be thoroughly inspected and the results compared to the reason for return stated on the RGA. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

DELIVERY AND FREIGHT CHARGES
All shipments are F.O.B. Point of Origin, Jasper, IN, freight prepaid and allowed dock to dock on 53' trailer. Ownership and responsibility of the merchandise becomes that of the buyer upon delivery to the freight company. Shipments into Alaska, Hawaii, Canada, Mexico, Puerto Rico and other exports are freight prepaid and allowed to port of exit.

Indiana Furniture reserves the right to select the most appropriate carrier and routing on all shipments. Indiana Furniture will attempt to accommodate requests for favored carriers and delivery times. Should these services be requested or required, all charges incurred will be charged to the "Sold To" of the order.

Shipments totaling less than $3000 (net value, product only) will be assessed a small order fee of $300 net per shipment. This fee will be reduced for items shipped via small package carriers. For order shipments of $100 or less, shipped by small package carrier, the fee is $18. For order shipments over $100, shipped by small package carrier, the fee is $40. CAMEO
TABLES + CONFERENCING (9100 SERIES)

Traditional components echo history and create timeless foundations for meeting rooms that complement our Jefferson and Arlington casegoods collections, and Cameo and Jefferson Reception options. Facilitate presentations with lecterns and visual presentation boards. Mobile serving carts and buffet height credenzas provide additional in-room utility.

CONSTRUCTION

Cameo Tables and Components feature your choice of either a Veneer or HPL top, Veneer bases, and Veneer chassis (where applicable).

VENEERS
- Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency

LAMINATES
- Exposed surfaces are produced from wood grained laminates fused to a particle-board core
- Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance

TOPS
- Wood Veneer tops are 5-ply balanced construction and High Pressure Laminate (HPL) tops are 3-ply balanced construction
- Tops are 1 3/16" thick with solid hardwood rims
- All buffets, credenzas, serving carts, video cabinets, and storage/wardrobe cabinets are shaped on user side only
- Grain direction runs left to right unless otherwise noted
- All Veneer tops, as well as Laminate tops up to 144" (12 feet), will have matching woodgrain. Laminate tops sized 156" (13 feet) and longer will have non-matching woodgrain

CHASSIS
- Tops and end panels are securely fastened using high quality
- European fastening systems to ensure maximum strength
- All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors

DRAWERS
- All drawer fronts are standard with elegant vertically matched walnut veneer faces
- Drawers feature 5-sided construction with 3/4" 3-ply fronts, 7/16" thick hardwood sides and 5/32" hardboard bottoms
- Units with 36" wide file drawers feature 1/4" thick drawer bottoms for maximum storage strength
- Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance
- All drawers feature full extension, progressive action slides with precision steel ball bearings
- Box and file drawers are tested for 100lb capacity
- Lateral files are tested for 200lb capacity
- All suspensions have a limited lifetime warranty

STORAGE
- All hinged doors include soft close hinges, unless otherwise noted
- One piece hinge and base plate combination
- Soft close hinges reduce stress placed on the cabinet when the door is closed and offers a quiet closure

LOCKING
- All units with file drawers feature locking
- Removable lock cylinders allow for units to be re-keyed at a later date if required
- Units are shipped randomly keyed as standard. Keyed alike units available upon request at no additional charge.
- Keyed alike units available upon request at no additional charge

SQUARE ONE
GETTING STARTED & PLANNING

STEP 1: PLANNING FOR SQUARE ONE

Planning for Square One is based on configuring 12"x24" and 24"x24" blocks in nearly any manner to create space dividing walls, coves, work zones, and more within open environments.

Idea Starters/Typicals:

When you select one of our pre-configured Typicals, everything you need comes specified together, including the blocks, caps and posts, hardware, glides, and more.

- Select the typical number (e.g., 17-4), then specify the finish and hardware color.
- Add optional accessories (see Step #5).

Make Your Own Typicals:

There are endless opportunities with Square One, giving you the ability to create unique setups to meet the specific needs of your customers.

- We recommend utilizing our Specification/Drawing Services team, who can help in bringing your vision to life and ensure all the necessary components are included. To get started, just send us a drawing. You can use our easy online request form: Design Request Form
- Steps #2 - #5 outline the process for specifying your own typical. Please provide a drawing with the order to ensure accuracy.

STEP 2: SPECIFYING BLOCKS

When making your own typical, choose the quantity of blocks needed to create your design. We offer single blocks in two styles: 24"x24" and 12"x24".

- Blocks can go up to four high (8') and do runs of five wide (10') without a supporting wall or anchor to create stability.
- We recommend using single 12" x 24" blocks on the top or ends. If placing on the bottom or in the center of the design, using two of them together will ensure alignment with the holes bored on attachment items like End Caps, Corner Posts, etc.
- When creating an "L" or "T" design, we suggest going a minimum of three blocks wide to ensure stability without additional support.

STEP 3: CAPS, POSTS, CONNECTORS, AND SPANNERS

Next, determine what Caps, Posts, Connectors, and Spanners are needed to complete the design.

- End and Top Caps are necessary to ensure a clean and balanced aesthetic (as they hide the attachment hardware/ensure no empty holes are showing where attachments would have been).
- Square One offers connection beams to create 90° turns (Corner Posts), three walls (T-Connectors), four walls (X-Connectors), and span doorways or other openings (Horizontal Beam Spanners).
- End Caps, Posts, and Connectors should always be specified to run longer (taller) than the unit so that the end of the top cap or horizontal rail will not be seen (there are only a few exceptions).

STEP 4: HARDWARE, LEVELING, AND GENERAL ASSEMBLY

Whether connecting square to square or square to post, individual components come with the necessary hardware. Should you need more, we offer separate Bolt Kits to provide proper installation.

We offer heavy-duty, adjustable leveling glides to compensate for uneven floors. A tool (6mm allen driver bit) is also available to insert the glide nuts. The glides must be ordered separately from the blocks.

We do not offer connection methods to anchor to the floor or wall. We recommend discussing this with the building's facility manager for proper connection. Indiana Furniture will not be liable for wall or floor mounts that are not properly installed.

Assembly Instructions may be found on our website.

STEP 5: ACCESSORIES

Add function without sacrificing beauty. Acrylic Inserts, Tackable and Acoustical Panels, Dry Erase Boards, and TV mounts can give your space the ability for more privacy, collaboration, or brainstorming.

- Dry Erase Boards and Tackable Panels have onset installation.
- Dry Erase Boards can be mounted either vertically or horizontally.
- Acoustical Panels are either specified onset or inset, and Acrylic Inserts are inset.
- Tackable Panels are fully upholstered, so a clean aesthetic is seen from both sides of the blocks.
- Acrylic Inserts lock into insert retainers which are installed on top of the hardware, inside of the block, allowing for a quick and tight-fitting installation.
- Frosted Acrylic Inserts can be customized with a logo or image, giving you freedom to create a personal touch. Provide a .CDR, .AI, or .EPS file. Extended lead times may apply.
- We offer the Vesta Power Data Center and other similar items to add power within your Square One spaces created.
