# TABLES + SPACE DIVISION

PRICING EFFECTIVE MARCH 27, 2023 (REV. 11/27/23)

Being over a century old hasn't slowed us down! Sure, we are still the reliable, ethical company that was born in southern Indiana, steeped in quality, craftsmanship, and service. But have you seen our latest introductions? We are making a splash with design and challenging the concept of modern offices. Go ahead. Take a look. You know you want to.

### Our Pledge to People + Our Planet.

We've been making wood furniture longer than just about anyone...and we want to be doing so for a long time to come. That's a large part of why we take a stewardship approach to our resources. We believe that environmental sustainability and business profits need not be mutually exclusive. They can and should exist side by side in a mutually beneficial relationship. And for more than a century, we've been showing how it's done.

We've proven our commitment to a sustainable future by supporting the standards and programs that protect our home planet and human health. Whether it's local sourcing, reducing contaminants, implementing wellness and safety programs, or diverting waste from landfills, social responsibility is a part of every decision we make at Indiana Furniture.

One of the surest ways to reduce our impact on the planet is to make and buy things that last. And this one's a natural for us. Our products are made with craftsmanship and attention to detail that are a part of our more than a century-long legacy in wood manufacturing. And our products are backed by our 12-year warranty, which facilitates maintenance, servicing and reassembly.

#### All of our product lines:

### **Ease of Specification**

Whether you're looking to specify your office spaces or simply to visualize them in the options and surface materials you are desiring, we make it easy. You can find the entire Indiana Furniture portfolio on the following third-party, space-planning platforms.

### **SQUARE ONE** GETTING STARTED & PLANNING

### STEP 1: PLANNING FOR SQUARE ONE

Planning for Square One is based on configuring 12"x24" and 24"x24" blocks in nearly any manner to create space dividing walls, coves, work zones, and more within open environments.

### Idea Starters/Typicals:

When you select one of our pre-configured Typicals, everything you need comes specified together, including the blocks, caps and posts, hardware, glides, and more.

- Select the typical number (e.g., 17-4), then specify the finish and hardware color.
- Add optional accessories (see Step #5).

### **Make Your Own Typicals:**

There are endless opportunities with Square One, giving you the ability to create unique setups to meet the specific needs of your customers.

- We recommend utilizing our Specification/Drawing Services team, who can help in bringing your vision to life and ensure all the necessary components are included. To get started, just send us a drawing. You can use our easy online request form: Design Request Form
- Steps #2 #5 outline the process for specifying your own typical. Please provide a drawing with the order to ensure accuracy.

### STEP 2: SPECIFYING BLOCKS

When making your own typical, choose the quantity of blocks needed to create your design. We offer single blocks in two styles: 24"x24" and 12"x24".

- Blocks can go up to four high (8') and do runs of five wide (10') without a supporting wall or anchor to create stability.
- We recommend using single 12" x 24" blocks on the top or ends. If placing on the bottom or in the center of the design, using two of them together will ensure alignment with the holes bored on attachment items like End Caps, Corner Posts, etc.
- When creating an "L" or "T" design, we suggest going a minimum of three blocks wide to ensure stability without additional support.

### STEP 3: CAPS, POSTS, CONNECTORS, AND SPANNERS

Next, determine what Caps, Posts, Connectors, and Spanners are needed to complete the design.

- End and Top Caps are necessary to ensure a clean and balanced aesthetic (as they hide the attachment hardware/ensure no empty holes are showing where attachments would have been).
- Square One offers connection beams to create 90° turns (Corner Posts), three walls (T-Connectors), four walls (X-Connectors), and span doorways or other openings (Horizontal Beam Spanners).
- End Caps, Posts, and Connectors should always be specified to run longer (taller) than the unit so that the end of the top cap or horizontal rail will not be seen (there are only a few exceptions).

### STEP 4: HARDWARE, LEVELING, AND GENERAL ASSEMBLY

Whether connecting square to square or square to post, individual components come with the necessary hardware. Should you need more, we offer separate Bolt Kits to provide proper installation.

We offer heavy-duty, adjustable leveling glides to compensate for uneven floors. A tool (6mm allen driver bit) is also available to insert the glide nuts. The glides must be ordered separately from the blocks.

We do not offer connection methods to anchor to the floor or wall. We recommend discussing this with the building's facility manager for proper connection. Indiana Furniture will not be liable for wall or floor mounts that are not properly installed.

Assembly Instructions may be found on our website.

### STEP 5: ACCESSORIES

Add function without sacrificing beauty. Acrylic Inserts, Tackable and Acoustical Panels, Dry Erase Boards, and TV mounts can give your space the ability for more privacy, collaboration, or brainstorming.

- · Dry Erase Boards and Tackable Panels have onset installation.
- · Dry Erase Boards can be mounted either vertically or horizontally.
- · Acoustical Panels are either specified onset or inset, and Acrylic Inserts are inset.
- · Tackable Panels are fully upholstered, so a clean aesthetic is seen from both sides of the blocks.
- · Acrylic Inserts lock into insert retainers which are installed on top of the hardware, inside of the block, allowing for a quick and tight-fitting installation.
- Frosted Acrylic Inserts can be customized with a logo or image, giving you freedom to create a personal touch. Provide a .CDR, .AI, or .EPS file. Extended lead times may apply.
- We offer the Vesta Power Data Center and other similar items to add power within your Square One spaces created.

Pending the results of your claim, either Indiana Furniture or the carrier will cover 100% of the cost to repair or replace the damaged or missing item.

**Concealed Damage** — If concealed damage is discovered, notify the delivering carrier at once and request an inspection. This must be done within 15 calendar days of delivery. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted them, noting the time and date, and that they failed to comply with your request. This, along with the other papers in your possession, will support the claim. Pending the results of your claim, the cost to repair or replace the item will be covered ½ by the carrier and ¾ by Indiana Furniture for shipments less than a full truckload and 100% by Indiana Furniture for shipments of full truck loads.

### **RETURN MERCHANDISE**

Merchandise will not be accepted for return without a RGA (Return Goods Authorization) issued by Indiana Furniture. We will consider issuing RGA's for the following reasons:

- 1. Manufacturing defect (inspected by Indiana Furniture representative)
- 2. Indiana Furniture order processing error
- 3. Shipping error
- 4. Mis-marked cartons
- 5. Duplicated shipments

If you have any questions as to whether your reason for return qualifies for consideration, please contact your Customer Service Representative. Merchandise must be returned within 60 days of the RGA issued date, or within 60 days upon receipt of replacement product to receive credit. Returns due to mis-marked cartons must also be returned in the original cartoning, with shipping labels intact, to receive credit.

All merchandise being returned must be properly packed and protected to ensure no further damage is incurred during transportation back to an Indiana Furniture facility. Upon receipt, all returned merchandise will be thoroughly inspected and the results compared to the reason for return stated on the RGA. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

### **DELIVERY AND FREIGHT CHARGES**

All shipments are F.O.B. Point of Origin, Jasper, IN, freight prepaid and allowed dock to dock on 53' trailer. Ownership and responsibility of the merchandise becomes that of the buyer upon delivery to the freight company. Shipments into Alaska, Hawaii, Canada, Mexico, Puerto Rico and other exports are freight prepaid and allowed to port of exit.

Indiana Furniture reserves the right to select the most appropriate carrier and routing on all shipments. Indiana Furniture will attempt to accommodate requests for favored carriers and delivery times. Deliveries requested Monday through Thursday, after 3pm, will be assessed a \$300 per truck after hours fee. Deliveries requested after 3pm on Friday or on weekends, will be assessed a \$600 per truck weekend delivery fee.

Inside delivery and installation services are not included in the pricing shown. Any deviation from dock-to-dock delivery, such as but not limited to, non-dock, residential, or inside delivery must be specified on the order. Should these services be requested or required, all charges incurred will be charged to the "Sold To" of the order.

Shipments totaling less than \$3000 (net value, product only) will be assessed a small order fee of \$300 net per shipment. This fee will be reduced for items shipped via small package carriers. For order shipments of \$100 or less, shipped by small package carrier, the fee is \$18. For order shipments over \$100, shipped by small package carrier, the fee is \$40. All shipping fees will be added at the time of invoicing
