

Cameo Conference

Technical Specifications

General Information

- Traditional components echo history and create timeless foundations for meeting rooms that complement our Jefferson, Wilmington, and Arlington casegoods collections.
- Facilitate presentations with lecterns and visual presentation boards.
- Mobile serving carts and buffet height credenzas provide additional in-room utility.
- For easy table-to-floor connectivity, combine a table top power center with a cylinder or half-cylinder base with hinged wire access door.
- All hardware necessary for proper installation and stability of an item is provided.
- All hardware on a unit is concealed.
- 8 Wood Veneers, 4 Woodgrain Laminates, 2 Edge and 5 Pull options.
- Custom capabilities.

Worksurface Construction

- Veneer tops are 1 3/16" thick and feature 5-ply balanced construction and solid hardwood rims.
- Laminate tops are 1 3/16" thick and feature 3-ply balanced construction and solid hardwood rims.
- Conference Tops are shaped on all four sides for complete design appeal
- Data and wire management is available
- Veneer tops are available in American Black Walnut, carefully selected and matched to assure proper balance and consistency.
- Laminate tops are available in Walnut options
- All buffet, credenza, serving cart, video cabinets and storage/wardrobe cabinet tops are shaped on the user side only.
- Grain direction runs left to right unless noted in Price List.
- Table Tops are bonded to the core with a PVA adhesive in a cold press to prevent separation of the laminate from the core.
- Heavy Duty Ganging Mechanisms Connect 2 Piece Tops.
- Grommets available for table tops are 2 3/8" in diameter, have a low profile, and include an insert and cover.
- Grommets can be field or factory installed.
- Power/Data Grommets are available and can be installed in pre-determined locations.

Base Construction

- Bases are constructed with a Grade M2 particleboard core with Veneer on exposed faces and a black backer sheet on all unexposed faces.
- Traditional Square Bases offered with a hinged door for integrated wire management.

Chassis Construction

- Tops and end panels are securely fastened using high quality European fastening systems to ensure maximum strength
- All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors
- All hinged doors include soft close hinges, unless otherwise noted
- One piece hinge and base plate combination
- Soft close hinges reduce stress placed on the cabinet when the door is closed and offers a quiet closure

Drawer Construction

- All drawer fronts are standard with elegant vertically matched walnut veneer faces.
- Drawers feature 5-sided construction with 3/4" 3-ply fronts, 7/16" thick hardwood sides and 5/32" hardboard bottoms.
- Units with 36" wide file drawers feature 1/4" thick drawer bottoms for maximum storage strength.
- Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.
- All drawers feature full extension, progressive action slides with precision steel ball bearings.
- Box and file drawers are tested for 100lb capacity.
- Lateral files are tested for 200lb capacity.
- All suspensions have a limited lifetime warranty.

Drawer Construction

- Drawers are 5-sided construction which allows for easy removal of the drawer fronts without disturbing the contents of the drawer.
- All drawers feature full extension, progressive action slides with precision steel ball bearings.
- File drawers have full height sides and metal file rails.
- All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements.
- The custom fitted filing systems prevents folders from binding and allows the drawer to close with index tabs in place.
- All units with file drawers feature locking.
- Removable lock cylinders allow for units to be re-keyed at a later date, if required.
- Units are shipped randomly keyed as standard.
- Keyed alike units are available upon request at no additional charge.
- Lock core will match pull color

Finish

- Cameo Conference features Ultra-Violet satin finish on all exposed surfaces by utilizing roll-coat UV technology.
- Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals.
- Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time.
- Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations.
- This process has allowed us to achieve third party certification for Indoor Air Quality.
- Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials.
- Automated production technology eliminates exposure to sprayed chemicals in our factories.

Sustainability

- 12 Year Warranty (some exclusions apply, see Full Warranty in Price List)
- Intertek's ETL Environmental VOC+ Product Certification
- ANSI/BIFMA Level Certified
- Contribution to LEED V4
- CARB (The California Air Resources Board) Compliance Products
