

# Canvas Reception

## Technical Specifications

### General Information

---

- Shell based components provide a seamless and polished aesthetic.
- A single lock core locks all drawers within a pedestal or lateral file.
- All hardware necessary for proper installation and stability of an item is provided.
- All hardware on a unit is concealed.
- Reception Units can be configured for a single or multiple users.
- 22 Woodgrain and Solid Laminates, 6 Solid Surfaces, 4 High Gloss Acrylics and 16 Pull options.
- NEMA Plug, Hardwired and Daisy Chain Power/Data Grommets are available in a variety of configurations.
- Additional options from the Canvas Series along with Extended Gallery Returns gives each Reception Unit ample storage.
- Custom capabilities.

### Worksurface Construction

---

- Worksurfaces are 1" thick thermally-fused laminate (TFL) with 3mm matching PVC rims in a square profile on all exposed edges.
- Worksurfaces are bonded to the core with a PVA adhesive in a cold press to prevent separation of the laminate from the core.
- Worksurfaces are securely fastened together using high quality European style fastening systems and heavy-duty 16-gauge joining brackets and wooden dowels to assure maximum strength.
- Grain direction runs left to right unless noted in Price List.
- Worksurfaces fit flush with adjoining worksurfaces.
- Returns & Bridges ship with flat brackets & screws to attach to adjoining worksurfaces.
- Grommets available for worksurfaces are 2 3/8" in diameter, have a low profile, and include an insert and cover.
- Grommets can be field or factory installed.
- Factory installed grommets may be ordered in the worksurfaces of desks, returns and bridge units.

### Component Construction

---

- TFL chassis and storage components are securely fastened together using high quality European style fastening systems and heavy-duty 16-gauge joining brackets and wooden dowels to assure maximum strength.
- Shells and Gallery Screen components are constructed with a Grade M2 particleboard core with thermally fused laminate on both faces.
- All units feature leveling glides with 1 1/4" of adjustment.
- Exposed edges have matching PVC edge band.
- Hinges on all doors are concealed and open 100 degrees.
- The height from the worksurface to the bottom of a Waterfall Transaction Kit with Paper slots is 7 3/16".
- The height from the worksurface to the bottom of a Transaction Counter is 11 1/4".
- Narrow Tower Storage contains two adjustable shelves inside cabinet.
- Tower Storage contains a coat rod behind full length door.
- Tower Storage contains a box/box/file pedestal with a cabinet above.
- Units with shelves are adjustable in 1 1/4" increments.
- Wardrobe cabinets that are 24" deep allow sufficient room to use standard coat hangers.
- Drawer and Door fronts have vertically matched grain and utilize the same drawer construction as the pedestals.
- Doors are available in laminate, metal framed frosted acrylic, dry erase board & high gloss acrylic options.
- All storage units feature standard locking.
- Removable lock cores allow for re-keying in the field.
- All units ship randomly keyed standard, keyed alike available on request.
- Lock cores match pull color (silver or black).
- Route power and data cables away from the worksurface through inherent grommet placement.
- Grommets will be black or silver based on pull color selected.
- Undersurface tracks are available for additional cord management.
- All units have a minimum of 4 adjustable glides with an adjustment from the floor of 1 1/4".

## Drawer Construction

---

- Drawers are ½" thick woodgrain vinyl wrapped construction with mitered corners and a 3-ply, ¾" thick drawer front, thermally fused laminate on both faces with matching PVC edge band on all edges.
- Drawer fronts have vertically matched grain.
- Drawers are 5-sided construction which allows for easy removal of the drawer fronts without disturbing the contents of the drawer.
- Box and file drawers have ⅛" thick hardboard bottoms with a vinyl face.
- Lateral file drawers feature ¼" thick bottoms with a vinyl face.
- Drawer bottoms are placed in a Dado groove reinforced with hot melt glue that provides a consistent structure along the entire length of all sides of the drawer bottom.
- Box and file drawers have full extension, progressive action slides with precision steel ball bearings.
- All suspensions have a lifetime warranty.
- File drawers have full height sides and metal file rails.
- Legal width file drawers provide legal filing front to back, and letter or legal filing side to side.
- Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.
- All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements.
- The custom fitted filing systems prevents folders from binding and allows the drawer to close with index tabs in place.

## Power & Data

---

- Duo Bezel Unit / Trio Bezel Unit
  - > Recesses into worksurface for easy access to power and data.
  - > Duo - 2 power/2 USB ports; Trio - 3 power/2 USB/1 Open Data Port
  - > HDMI, VGA, or RJ45 Accessories for Trio sold separately.
  - > Independent USB circuit controllers deliver up to 2.1 amps to each post.
  - > All mounting hardware included.
  - > FCC Part 15A and UL Approved for horizontal and vertical applications.
  - > NEMA Plug units include a 10' Power Cord.
  - > Hardwired units are 8 Wire/4 Circuit; Maximum 10 Duo units per circuit.
  - > Daisy Chain units allow up to 8 modules to be connected with available jumper cord.
- Power Data Port
  - > Flip Top design retracts into worksurface to regain productive space.
  - > One-Touch access to power and data.
  - > (2) Power Outlets and (2) Open Ports for Data
  - > Water-Proof simplex outlets
  - > Includes a Voice/Data adapter kit to accept couplers and jacks when required.
  - > 6' Power Cord
- ChargeSpot
  - > Wireless Charging Enabled Devices (Qi) can be used directly with ChargeSpots without the Aid of a Spark.
  - > Not Compatible with Metal or Glass Surfaces.
  - > Chargespot Sparks available for non-compatible devices (See Price List for detailed list)

## Tack Boards

---

- Tack Boards are available in a wide variety of fabric selections for installation with or without a Transaction Counter.
- Not compatible with Waterfall Transaction Kit with Paper Slots.

## Sustainability

---

- 12 Year Warranty (some exclusions apply, see Full Warranty in Price List)
- Intertek's ETL Environmental VOC+ Product Certification
- ANSI/BIFMA Level 2 Certified
- Contribution to LEED V4
- CARB (The California Air Resources Board) Compliance Products
