

Gleem Seating

Technical Specifications

Construction & Materials

- Frame:** Kiln-dried, solid European Beech hardwood and structurally engineered plywood; joints are double doweled, screwed, and glued for maximum strength and durability. Non-marring glides included with each leg.
- Seat:** High gauge sinuous springs or high quality resilient sheet webbing fastened underneath high-grade polyurethane foam; corner blocking ensures sturdy support.
- Finish:** Multi-step catalyzed varnish hand-finishing process is used on all exposed wood frames.

Features

- Three arm styles blend classic design with modern interiors.
- Wall saver design prevents chair back from hitting and marring the wall.
- Effortlessly integrates with designs spanning from contemporary to traditional.
- Coordinating full back and clean-out back options are a perfect fit for healthcare, education, and other markets.
- Bariatric models, in full back or clean out, are available and support users up to 400lbs.
- A broad range of upholstery, leather, and finish options. Get inspired at www.indianafurniture.com/resources/surface-material.

Certifications & Compliance

- ETL Environmental Certification for compliance with VOC emission concentrations
- BIFMA level® 2 Certified for environmentally-preferable and socially-responsible office furniture
- Meets or exceeds ANSI/BIFMA performance standards
