

Joy Task Seating

Technical Specifications

Construction & Materials

- Seat:** Manufactured plywood
- Back:** Formed with tubular steel frame with black or white mesh
- Arms:** Black polyurethane and chrome
- Base:** Black nylon or polished aluminum 5 star base
- Casters:** 50mm black dual-wheel casters, black, non-marring soft caster, black guides or chrome-rimmed hard surface caster with roll control

Features

- Choose from a Black or White mesh back, and black vinyl, graded-in, or COM seat fabrics.
- A variety of arm options, including armless, black/chrome height adjustable T with sliding and pivot arm pad, black/chrome height and width adjustable T with sliding and pivot arm pad, black/chrome height adjustable T with fixed arm pad, black/chrome height and width adjustable T with fixed arm pad, or fixed black cantilever arm.
- Contoured waterfall edge seat features molded foam with rounded, sloped front to relieve pressure on back of user's thighs and knees to improve blood circulation to lower legs.
- Comes standard with a 5-position adjustable ratchet back for comfort customization and maximum support, and 4-position adjustable lumbar for individual comfort.
- Pneumatic lift for simple and easy height adjustment.
- 5-star black nylon or polished aluminum base.
- Standard Control features tilted recline position that locks in place and tension control, while Synchro Tilt Control comes with back tilt, multi-angle and locking recline, and tension control; optional seat slider is available.
- Rated for up to 400lbs, making Joy the natural go-to task chair for many different users and environments.

Certifications & Compliance

- ETL Environmental Certification for compliance with VOC emission concentrations
- BIFMA level® 2 Certified for environmentally-preferable and socially-responsible office furniture
- Meets or exceeds ANSI/BIFMA performance standards
