

Marquee Seating

Technical Specifications

Construction & Materials

- Frame:** 16 gauge steel rectangle tube frame with non-marring glides included with each leg.
- Seat:** Seats are made of manufactured plywood. 3" thick high grade polyurethane foam. $\frac{3}{8}$ " bolts fasten seat to back.
Textiles are sewn with double stitch seams.
- Back:** Backs are formed with bent plywood. 1 $\frac{3}{4}$ " thick high grade polyurethane foam.
- Finish:** Multi-step catalyzed varnish hand-finishing process is used on wood arm caps.

Features

- Marquee combines a mix of materials offering unlimited flexibility
- The ergonomic bend in the back provides lumbar support and promotes circulation
- Steel frame is available in five powder coat color: Aluminum, Mist, Noir, Oyster, Sugar Cookie
- Arm caps available with upholstered fabric or an array of wood finish colors
- Available in contrasting fabrics, allowing you to personalize Marquee to suite any application
- A broad range of upholstery, leather and finish options. Get inspired at www.indianafurniture.com/resources/surface-material

Certifications & Compliance

- ETL Environmental Certification for compliance with VOC emission concentrations
- BIFMA level® Certified for environmentally-preferable and socially-responsible office furniture
- Meets or exceeds ANSI/BIFMA performance standards
