Indiana Furniture Brings Biophilia Options, Barn Doors, and More to Square One.

Jasper, IN, October 4, 2019 – Indiana Furniture continues to set new standards for affordable, design-friendly products. Today the company will begin taking orders on enhancements to the popular architectural and space division series, Square One.

Square One is the clean, simple way to provide space division, functionality, and architectural design to any zone within the working environment. The individual building blocks allow for a nearly limitless amount of ways to create personalized and collaborative space anywhere in a facility, without the need for traditional construction. Now, the line has been enhanced by offering additional acoustic and acrylic insert choices, end caps and rails to increase configuration options, barn doors to create enclosed spaces, and planter boxes to integrate biophilia on individual walls or throughout space division setups.

“We designed Square One to easily define space between workers and create areas to encourage collaboration or allow for focused work and private conversations. These current enhancements further address today’s working environment by giving clients more options to enhance productivity and allowing them to bring the outdoors in,” says Mike Blessinger, VP of Sales & Marketing for Indiana Furniture. “This product epitomizes the warmth and beauty of wood, one of our core competencies, and provides a solution for all audiences and style preferences.”

With Square One, Indiana Furniture broadens their offering of solutions for the open plan and further strengthens their presence as a go-to supplier for today’s solutions. The product installs quickly and can be effortlessly reconfigured as needs change. The series is made of solid wood, providing a sustainable material for the workplace and linking the relevant design to the long-standing heritage of Indiana Furniture.

Learn more about Square One at IndianaFurniture.com or see it first-hand at an Indiana Furniture showroom or dealership.
