

Cleaning Guide

Pattern: Cover Cloth

Color: Graphite

Product Number: 09137588

Content: 56% Repreve® Post Consumer Recycled Polyester; 44% Polyester

Finish: Crypton Green®

W General Recommendations

- Clean with water based foam or cleaner
- Do not saturate with liquids
- Do not get the furniture wet
- Do not use dry cleaning solvents

Regular Maintenance

- Vacuum regularly
- Use the proper upholstery attachment to avoid pilling and remove dust and lint
- Clean periodically to remove build up
- Promptly treat spots and stains

Stain Treatment and Spot Cleaning

A professional cleaning service is recommended

Treat stains quickly

- It will become increasingly difficult to remove the longer a stain is allowed to set
- Pretest any cleaning method or agent in a small hidden inconspicuous area
- Several less concentrated applications are less damaging than one concentrated application

Do not let fluids penetrate the surface

- Remove fluids immediately by blotting with a clean, colorfast, absorbent cloth

Remove solid or semi-solid substances

- Using a flat object, remove as much of the stain as possible
- After removal, vacuum thoroughly using the proper attachments before cleaning with an agent

For all stains

- Using a soft brush or sponge, apply warm, soapy water to the stain
- Use light, quick strokes and start from the outside of the stain and work towards the center
- Do not rub or scrub as this may damage the fabric
- Do not use heat. Heat will set the stain.
- Do not over wet as this may leave a ring
- Soak up any remaining cleaning solution
- Use a clean cloth and cool water to remove any residue
- Allow fabric to dry thoroughly
- Vacuum well using appropriate upholstery attachment

Cleaning Guide

For all stains

- Mix 2 cups of warm water with 1 teaspoon of enzyme laundry detergent (e.g., Tide® or Cheer®)
- Remove excess soil and apply the soap and water mixture to the stained area
- Agitate stain with a soft brush, brushing in a circular motion inward making sure to not "grow" the stain
- Allow solution to remain on stain for one minute
- Blot up the stain with a dry, white towel, rinse any remaining soap with water and blot the area again
- Repeat if necessary

Extraction cleaning

For overall cleaning, we recommend periodically extracting upholstered surfaces

- Before wet-cleaning, vacuum the upholstery
- Apply cleaning solution to specific spots and lightly brush
- Follow directions on filling extraction machine with proper solution, wet the area with pre-spray and vacuum up the solution
- Be sure to extract the entire surface of the upholstered furniture to achieve uniform cleanliness

Bleach Cleanable

To disinfect spray a 10:1 ratio water/bleach mixture on the fabric and allow to linger for the time specified by the Centers for Disease Control and Prevention.

Rinse all cleaning agents thoroughly with water and wipe with a soft cloth

- Residue left by cleaning agents will degrade and shorten the life and/or affect the product's appearance if not removed.

Approved Cleaners

This list represents some of the most common options available and is not intended to be comprehensive.

Cleaning Guide

The cleaning recommendations above are a guide to help in the maintenance of Momentum Textiles fabrics. They are supplied without warranty, representation or inducement of any kind, including, but not limited to, the implied warranties of merchantability and fitness for particular use or purpose. Momentum Textiles can neither guarantee, nor take responsibility for specific results.

Under no circumstances shall Momentum be liable for any incidental, consequential, or other damage resulting from negligence, misuse, mishandling or exposure of any chemicals used in connection with maintenance. Information relating to chemicals/cleaning solvents, environmental use, and human exposure should be reviewed with appropriate suppliers. Users must read the product specifications and determine appropriateness for specific applications. All label instruction precautions should be followed. All cleaning agents must be rinsed thoroughly with water and wiped with a soft cloth. Residue left by cleaning agents will shorten the life of the product if not removed.
